Prashant Jani

Data Analyst | Frontend Developer

jani.prasant2810@gmail.com +91 75672 31228 Navsari, Gujarat Jani Prashant

PROFESSIONAL SUMMARY

Frontend Developer with 6+ years of professional experience in building web applications, now making a deliberate career transition into Data Analytics after completing a Post Graduation Program in Data Science & AI/ML from IIT Guwahati (via Masai School). Brings hands on Python, SQL, and data analysis skills from structured academic training, combined with real world technical discipline from working in production environment. Comfortable with data pipelines, API data handling, and translating business needs into measurable outcomes.

EDUCATION

IIT Guwahati (via Masai School), 02/2025 – 04/2026
Post Graduate Program - Data Science & AI/ML
Core curriculum: Python for Data Science, SQL & Databases, Statistics & Probabilities, Exploratory Data Analysis, Machine Learning Fundamentals, Data Visualization, Business Analytics.

SRIMCA, Uka Tarsadia University, 08/2015 – 05/2017
Master of Computer Application (MCA)

SS Patel, Veer Narmad South Gujarat University (VNSGU), 07/2012 – 05/2015
Bachelor of Computer Applications (BCA)

TECHNICAL SKILLS

Data Analytics Skills (from PG Program - IIT Guwahati)
- **Languages:** Python (Pandas, NumPy, Matplotlib), SQL
- **Analysis:** Exploratory Data Analysis (EDA), Data Cleaning, Descriptive Analytics, Regression Analysis
- **Databases:** MySQL, Relational Databases, SQL (joins, aggregations, subqueries, group by, window functions)
- **Spreadsheets:** Excel - Pivot Table, VLOOKUP/XLOOKUP, Conditional Formatting, Data Validation, Basic Dashboards
- **ML Basics:** Supervised & Unsupervised Learning Concepts, Clustering, Decision Trees, Model Evaluation
- **Visualization:** Data Storytelling, KPI Interpretation, Chart Design, Business Reporting

Frontend Development Skills
- **Frontend Development:** React, TypeScript, JavaScript, HTML5, CSS3, React Native, jQuery
- **UI Frameworks & Styling:** Bootstrap, Tailwind CSS, Responsive Web Design, Cross-Browser Compatibility
- **Backend & Databases:** PHP, Laravel, MySQL
- **CMS & E-commerce Platforms:** WordPress, Magento 2, PrestaShop, Shopify
- **Design to Development:** Figma to HTML, PSD to HTML, Pixel-perfect UI implementation
- **Version Control & Collaboration:** Git, Github Bitbucket
- **Web Optimization:** SEO basics, performance optimization, accessibility considerations
- **Development Focus:** E-commerce development, scalable UI components, maintainable code structure

Soft Skills:
- Problem-solving, Analytical thinking, Time management, and clear communication.

PROJECTS

SMART JOB MARKET ANALYZER, *Python | Pandas | API | EDA*
- Collected real-time job listing data using REST APIs and processed JSON responses using Python to create structured analysis-ready datasets.
- Performed exploratory data analysis using Pandas to identify high-demand skills, role-wise trends, and location-based hiring patterns.
- Analyzed keyword frequency and salary distributions to uncover emerging skill gaps in the data analytics job market.
- Built visual summaries to highlight top technologies and experience-level requirements across job postings.
- Generated data-driven insights to guide career planning and skill development strategies.
- **Github Link:** Smart Job Market Analyzer

WEATHER FORECAST CLI APPLICATION, *Python | Open-Meteo API*

- Integrated Open-Meteo Geocoding and Forecast APIs using Python (Requests) to fetch real-time weather data and 7-day forecasts based on user-input city names.
- Built a reusable HTTP session with urllib3 retry logic and exponential backoff to handle network failures and improve request reliability.
- Implemented structured error handling for timeouts, invalid responses, and incorrect city inputs to ensure stable CLI performance.
- Mapped WMO weather codes to user-friendly weather descriptions and formatted JSON responses into a clean, readable command-line output.
- Optimized response handling and output structure to deliver accurate forecasts with improved user experience and fault tolerance.
- **Github Link:** Weather CLI App

PROFESSIONAL EXPERIENCE

Benchmark Gensuite, *UI Developer / Lead Product Developer (Contract)* 06/2026 – Present | Remote

- Develop and enhance user-facing features for a SaaS product across the full software development life cycle, from requirements and design through development, testing, and release.
- Translate UI/UX designs, wireframes, and business requirements into high-quality, responsive, cross-browser-compatible interfaces using HTML, CSS, JavaScript, and jQuery.
- Validate the technical feasibility of UI/UX designs and optimize the application for speed and scalability.
- Integrate the UI with REST APIs and backend services, working closely with product managers, designers, and backend developers to deliver seamless user experiences.
- Handle product support activities including bug fixing, troubleshooting, and UI enhancements, and work with customer-facing teams to turn user feedback into usability improvements.
- Participate in code reviews and maintain consistency in design systems, coding standards, and reusable components.

Baltic Capital Partners, *Frontend Web Developer* 04/2023 – 02/2026 | Remote

- Designed and developed responsive websites from Figma designs, converting UI mockups into pixel-perfect interfaces using HTML, CSS, JavaScript, React, TypeScript, and Bootstrap.
- Built interactive features for an NFT marketplace including property listings, auction systems, and dashboards using React and TypeScript with a Laravel backend.
- Integrated frontend applications with Laravel APIs, handling data flow, Open Graph metadata, and backend-driven functionality across connected platforms.
- Managed and optimized WordPress-based websites including Baltic Capital Partners and My Gateway to Europe, improving SEO performance, site speed, and overall usability.

Hiddentechies, *Web Developer* 05/2019 – 03/2023 | Surat, Gujarat

- Developed custom themes and templates for Magento 2 and PrestaShop, contributing to more than 50 e-commerce storefront implementations.
- Implemented responsive, pixel-perfect layouts using HTML, CSS, JavaScript, and Bootstrap while ensuring cross-browser compatibility across devices.
- Resolved client support tickets by diagnosing bugs, fixing frontend issues, and implementing new features for existing e-commerce platforms.
- Collaborated with designers and backend developers to deliver scalable UI components and maintain high code quality in fast-paced development environments.

Templatemela (Pixothemes), *Web Developer* 07/2017 – 04/2019 | Surat, Gujarat

- Developed and customized PrestaShop templates for international clients, ensuring responsive layouts and cross-browser compatibility.
- Converted Figma and PSD designs into responsive HTML, CSS, and JavaScript templates with pixel-perfect implementation.
- Assisted in maintaining and updating e-commerce storefronts, including content updates and basic SEO optimization.
- Gained hands-on experience with PHP, jQuery, and CMS platforms including PrestaShop, WordPress, OpenCart, and Shopify ecosystems.

CERTIFICATES

- Post Graduation Program in Data Science & AI/ML - IIT Guwahati / Masai School (2025 - 2026)
- Big Data Fundamentals - Big Data University
- IIT Bombay Tech Fest Participation Certificate, 2016
- Collabera Tact 360 Recruiter Certificate, 2016
